

Specifications

Part Number: 4110-420

Dimensions: Reference Table

Weight: Reference Table

Description: Single place PB-2 type outlet. Outlet is fabricated from 6061-T6 aluminum with a nut for mounting in a panel.

Normally mounted within the aircraft interior. Utilized for plugging in crewmember quick donned demand masks or constant flow oxygen masks.

Oxygen outlet will accept couplings from Aerox P/N 4110-608, BE Aerospace P/N 173702, 173704, 270160, Avox P/N 36857, 802958, EROS DMZ Series.

Hole size for gage mounted in panel: 0.875"

Maximum panel thickness: 0.5"

Port Size: 1/8 NPT

Service Medium: Aviator Breathing Oxygen
Per MIL-O-27210

Operating Pressure: 0 to 90 Psig

Maintenance: On-Condition
